

To my Gainesville Vet Family,

On behalf of Bailey, I wanted to express my deep gratitude for the care + love you displayed in these last years of her life. I know that each of you cared for her as if she were your own whenever she visited the office. I feel certain that because of your presence and the manner in which you embraced her with love ~ I was given much more time with her. I can never fully express my heart felt thanks for all you've done.

Even in the end, the extra mile Brett took to comfort me and finalize arrangements or the kind words and arm around my shoulder from Dr. Ford ~ those are the little things that count in difficult times.

We will certainly miss the relationship we shared because of Bailey but take solace in knowing of the work you do for many others in need. Thanks so much ~ Tami English + Michele Taylor
