

Dear Dr. Scott and Staff,

We want to thank you for helping us take care of our girl Zen for the last 17 years. The kindness and understanding you showed us most recently when we made the heart breaking decision to let her go was especially appreciated.

Although we still grieve for

her, we are grateful that we were able to be with her and watch her go so peacefully.

You are all very special people and truly love our kids as we do. You deserve a thousand thanks for all you do.

Thank you,

Natalie and William Bruce
